*Mills Albert Ltd has been Hiring and Buying Plant, from Hireways, for about 10 years now.*

*The Presentation and Variety of the Plant available along with the superb Customer Service is outstanding.*

*They are our "Go to" Hire Company.*

**Dave - Mills Albert Ltd**

## ***Who are Hireways?***

We are a family owned & operated company servicing the lower North Island and wider. We have a sound understanding of what New Zealanders need due to our experience in the field, and you could call us veterans.

Any job is the right size for us and we supply everyone from nationwide civil contractors to local tradesmen. Our wide range of equipment that is kept in top shape to meet the varying needs of all our customers.

We are continually progressing to stay at the top of the game, because we know times are changing. More than ever, it's all about service. We have a reputation that shouts 'best customer service' and we aim to keep that title and beat our own records.

You be the judge. What matters the most is that the your experience is seamless, and that the ongoing costs are minimal... which is why we make sure our fleet is constantly updated with late model, modern machinery and backed up with stringent maintenance processes so you can just get on with your project worry free.

## Things you should know

When you've been supplying hire equipment to the construction industry for as long as we have, you get to know people and understand their needs. Consequently, Hireways customers benefit from the most professional, proactive and flexible service in the plant hire business and at really competitive rates.

We are continually striving to meet and exceed our customers' needs. Of course, like anybody, you'll have questions regarding costs, and truth be told it is possible to compromise on service to reduce rates. But that's not how we operate. Our customers tell us they like picking up the phone, speaking to a familiar voice and knowing their request will be handled quickly and efficiently and with the minimum of fuss.

### Why Choose HireWays?

- **Experienced People:** Despite one of the widest ranges of equipment and late model machinery, ours is a people business. Everybody, from the Hire Desk team, to the workshop, is willing and able to improve customer service.
- **Latest Modern equipment:** The hard-working team here at Hireways are continually striving to provide our customers with a quality hiring experience. We could not do this with old and unkempt equipment. We show pride in the way we like to keep our machines at the peak of condition. We hire out a large range of different makes and models of machinery to satisfy the varying needs of our customers. Our equipment is continually updated with new late model machinery.
- **Reduced downtime:** You never want to be held up by inconvenient delays. Like a break-down on a machine. Thanks to our commitment to replacing machinery regularly and regular maintenance, we offer a high quality fleet of equipment that is less likely to break-down. Saving you time and money. If a machine does have a problem, or needs a service, you'll be reassured that a technician will be with you as soon as possible.
- **Full Valet:** We start with the basics. We clean every item of equipment. Not once, not twice, but every time it returns to one of our depots. We do this regardless of how long it's been out on hire. And when we say clean, we don't mean an external wipe-down. We mean a full valet inside and out. The teams in our yards have a saying, "There's clean and then there's Hireways clean." After cleaning, we're checking. All machinery and equipment is thoroughly examined before it's hired out. Each item is then issued a pre-hire tag. These provide you with evidence of our checks, and complete peace of mind.
- **Safety:** When it comes to safety, we never rest. We're constantly making incremental improvements. Things like roll over protection systems on all our machines and double locking quick hitches on all excavators 6 ton and upwards. Ultimately safety comes down to people. So we train all our drivers how to operate all the equipment and machinery we deliver. And most significantly, if required, we'll visit your site to demonstrate to your people how to use equipment hired from us. This ensures your hire period is as safe as possible.
- **Workshop:** Hireways operates a workshop with a large team of mechanical technicians and engineers where we up spec and fully maintain our fleet. It is here where we service and make alterations to our equipment, to suit our customers' requests and expectations of Hireways Service.
- **Transport:** With experienced operators and a variety of transport units Hireways has a large coverage, we organise the machine hire through to the transport meaning that you as the customer are able to get on with the job knowing that your machine will arrive on time and within budget.

If you have questions, please don't hesitate to pick up the phone, we promise you, it's one call you won't regret.

# 10 Ways Hire Will Improve Your Business

## Hire is proven for:

- **Economy:** Is your equipment only used part of the time? When you own equipment, it can spend much of its time offering no return on your investment. HIRE and you only pay when the machine(s) actually being utilized.
- **Conserved Capital:** HIRE lets you have the use of the equipment without capital outlay. You only pay when it's working for you. Spend your capital dollars that you save through HIRE on investments in niche products or areas where additional profits are generated.
- **Try Before you Buy:** Not sure which size/model will best do the job? And requirements change frequently? HIRE gives you great flexibility and gives you hands on experience and a guide for future purchases.
- **Fast Cost Recovery:** Generally, HIRE payments are fully tax deductible. While purchased equipment is depreciated, tax savings yield slowly. Independent professional advice is best obtained in planning what is most suitable.
- **Maintenance Cost Eliminated:** Why have the expenses of maintaining, certifying and warehousing? And when you HIRE, you gain many benefits like professional technical support.
- **Preserved Credit:** Why allow capital purchases to erode big \$'s in operational funds and available credit lines? When you HIRE, capital can be preserved.
- **Obsolescence is Eliminated:** Take the risk of obsolescence away. With HIRE you don't end up owning an old dog!
- **Stretched Budgets:** If you have urgent deadlines or unforeseen inefficiencies you will require more equipment than your purchase budget will allow. HIRE at the most cost-practical and economic solution.
- **Expensive Allocation:** Any difficult, complicated costings can be easily overcome. HIRE payments can be sorted directly and fairly to specific clients or contracts where the equipment was used.
- **Unforeseen Needs Satisfied:** When initial equipment breaks down, or the pressure comes on in peak periods, HIRE can place the necessary equipment where you need it.

# Transportation

The range of equipment Hireways offers varies in shape and size and there are limitations to the possible transport methods for each item in the fleet. In order to help you decide on the best equipment for your job we have included a list of recommended transport requirements for each item.

Hireways operates a fleet of delivery trucks and vehicles to help you make sure your equipment will be available when and where you need it

## Health & Safety Policy

Hireways is a leading hire company excelling in fleet supply and hire. We strive with the same innovation and leadership to protect all our staff. We are committed to continuous improvement in Safety Management and our mission to protect the Health & Safety of all and build a culture of Health & Safety within the Company.

We will achieve our objective through teamwork at all levels and will ensure that it is communicated and understood.

### Hireways commits to:

- taking all reasonable steps to prevent the exposure of our workers, contractors and the community to risks and hazards associated with our activities;
- setting targets and objectives and providing appropriate resources to manage implement and control activities to continually improve Health and Safety;
- ensuring managers, employees and other stakeholders are aware of their accountabilities and responsibilities as defined within the Work Health and Safety Management System;
- complying with all relevant Work Health and Safety legislation and applicable codes of practice;
- conducting regular management reviews to measure and monitor Work Health and Safety performance for a continual improvement of the Health & Safety program and performance
- Our dedicated Health and Safety Officer Adrian McCabe is committed to achieving and maintaining our impeccable safety record and ensuring all staff and customers are sufficiently protected from hazards in the workplace

Managing Director  
Tim Hart

# ACCESS

Hireways are experts when it comes to accessing high and awkward positions with their wide range of access solutions and construction knowledge, so when you call on us you can be guaranteed to get sound advice that will allow you to get the job done at a significant height with the right access equipment.

There are a number of different devices designed to help you work safely and speedily above ground level, ranging from cherry pickers, stick booms, knuckle booms, Telehandlers, scissor lifts and man lifts. These are all sourced from top quality brands and maintained to our high standards allowing you to get the job done first time round, safely and on budget.

Power	Single Phase

## 5.7m Vertical Mast

Transport	
Working Height	5.7m
Platform Height	3.7m
Width	0.76m
Stowed Height	1.7m
Platform Capacity	227kg
Weight	776kg
Power	Electric

## 5.8m push around scissor lift

Transport	
Working Height	5.8m
Platform Height	3.8m
Width	0.76m
Stowed Height	1.92m
Platform Capacity	240kg
Weight	434kg
Power	Electric

**7.8m Slab Scissor Lift**

Transport	
Working Height	7.8m
Platform Height	5.8m
Width	0.76m
Stowed Height	2.17m
Platform Capacity	227kg
Weight	1379kg
Power	Battery

**8.1m Narrow slab scissor lift - indoor only**

Transport	
Working Height	8.1m
Platform Height	6.1m
Width	0.76m
Stowed Height	2.2m
Platform Capacity	360kg
Weight	2065kg
Power	Electric

**9.75m narrow slab scissor lift - indoor only**

Transport	
Working Height	9.75m
Platform Height	7.75m
Width	0.76m
Stowed Height	2.33m
Platform Capacity	360kg
Weight	2200kg
Power	Battery

**11.7m Slab Scissor Lift**

Transport	
Working Height	11.7m
Platform Height	9.7m
Width	1.17m
Stowed Height	2.36m
Platform Capacity	320kg
Weight	2870kg
Power	Battery

**9.92m A/T scissor lift**

Transport	
Working Height	9.92m
Platform Height	7.92m
Width	1.73m
Stowed Height	2.32m
Platform Capacity	567kg
Weight	2833kg
Power	Battery

**10m A/T Scissor Lift**

Transport	
Working Height	10.28m
Platform Height	8.28m
Width	1.7m
Stowed Height	2.5m
Platform Capacity	580kg
Weight	4149kg
Power	Diesel

### 12m A/T Scissor Lift

Transport	
Working Height	12.15m
Platform Height	10.15m
Width	1.8m
Stowed Height	2.55m
Platform Capacity	450kg
Weight	4060kg
Power	Diesel

### 12m scissor lift - extending deck

Transport	
Working Height	12.06m
Platform Height	10.06m
Width	2.68m
Stowed Height	2.7m
Platform Capacity	1134kg
Weight	6124kg
Power	Diesel

### 14.2m A/T scissor lift Electric

Transport	
Working Height	14.20m
Platform Height	12.20m
Width	1.75m
Stowed Height	2.81m
Platform Capacity	360kg
Weight	5300kg
Power	Battery

### 14m A/T Scissor Lift Diesel

Transport	
Working Height	14m
Platform Height	12m
Width	2.1m
Stowed Height	2.7m
Platform Capacity	340kg
Weight	4685kg
Power	Diesel

### 18m A/T Scissor lift

Transport	
Working Height	18m
Platform Height	16m
Width	2.27m
Stowed Height	3.19m
Platform Capacity	680kg
Weight	9190kg
Power	Diesel

### 8m Tracked scissor lift

Transport	
Working Height	7.9m
Platform Height	5.9m
Width	1.3-1.5m
Stowed Height	2.52m
Platform Capacity	250kg
Weight	2190kg
Power	Petrol/ Electric

### 11m Electric Boom

Transport	
Working Height	11m
Platform Height	9m
Width	1.22m
Stowed Height	2.01m
Platform Capacity	230kg
Weight	6985kg
Power	Battery

### 15m Knuckle Boom

Transport	
Working Height	15m
Platform Height	13m
Width	2.08m
Stowed Height	2.3m
Platform Capacity	230kg
Weight	7430kg
Power	Diesel

### 16m Knuckle Boom

Transport	
Working Height	16m
Platform Height	14m
Width	2.3m
Stowed Height	2.37m
Platform Capacity	230kg
Weight	7450kg
Power	Diesel

### 18m Knuckle Boom

Transport	
Working Height	18m
Platform Height	16m
Width	2.3m
Stowed Height	2.37m
Platform Capacity	230kg
Weight	8000kg
Power	Diesel

### 20m Knuckle Boom

Transport	
Working Height	20m
Platform Height	18m
Width	2.4m
Stowed Height	3.2m
Platform Capacity	230kg
Weight	10000kg
Power	Diesel

### 21m Knuckle Boom

Transport			
Working Height	21m	Stowed Height	2.25m
Platform Height	19m	Platform Capacity	225kg
Operating Width	4.2m	Weight	3950kg
Stowed Width	2.05m	Power	Diesel

### 16m A/T Boom - Self Levelling

Transport	
Working Height	15.7m
Platform Height	13.7m
Width	2.25m
Stowed Height	2.05m
Platform Capacity	200kg
Weight	6000kg
Power	Diesel

### 20m Telescopic boom

Transport	
Working Height	20.29m
Platform Height	18.29m
Width	2.44m
Stowed Height	2.57m
Platform Capacity	230kg
Weight	11900kg
Power	Diesel

### 12m Cherry Picker

Transport	
Working Height	12.36m
Platform Height	10.36m
Stowed Width	1.45m
Operating Width	3.59m
Stowed Height	1.94m
Platform Capacity	230kg
Weight	1400kg
Power	Electric

### 13m Cherry Picker

Transport			
Working Height	13m	Stowed Height	2.05m
Platform Height	11m	Platform Capacity	250kg
Stowed Width	1.38m	Weight	1260kg
Operating Width	3.95m	Power	Petrol

### 15m Cherry Picker

Transport	
Working Height	15m
Platform Height	13m
Stowed Width	1.74m
Operating Width	3.7m
Stowed Height	2.1m
Platform Capacity	200kg
Weight	1700kg
Power	Petrol

# CHIPPERS / GRINDERS / SPLITTERS

Hireways Ltd have a number of different machines to accommodate all your tree working needs. The stump-grinders come in sizes from 25hp to 66hp which allows you to remove stumps at minimal damage to your property.

Our modern stump grinding equipment is light, manoeuvrable, quick and non-intrusive, reducing the impact on the environments they work in. Our hand feed tree chippers range in size from 6" to 15"; they are built tough enough to withstand the daily grind. The machines are well maintained and easily transportable. With both vertical and horizontal hydraulic wood splitters we have the right machine to suit your requirements. Ring today with all your tree work needs.

# CONSTRUCTION / DEMOLITION

Breakers, compressors, concrete cutters, lasers, concrete mixers, Hireways Ltd have the equipment for you in any construction or demolition applications.

Hireways caters for all markets, whether you are renovating your house, or on a major construction site. Having good quality equipment readily available that you can rely on ensures you get those construction jobs completed on time.

## Large Breaker

Transport	
Type	26kg Electric/Petrol
Description	Large breaker, petrol or electric, spade, chisel point, tamping foot

## Electric Breaker

Transport	
Type	10.5kg Electric Breaker
Description	Electric breaker, spade & chisel points

## Hydraulic Breaker

Transport	
Type	Hydraulic Breaker, Hydraulic power pack
Description	Spade & chisel points

## Air Breaker

Transport	
Type	Air Breaker
Description	Spade & chisel points

### Concrete Cutter

Transport	 
Type	Concrete Cutter
Description	Petrol, 350 & 400mm blades, trolley & handheld

### Compressor & Staple Gun

Transport	
Type	120 psi Compressor & Staple gun
Description	Trail blazer compressor, 40mm Staple Gun

### 125CFM Compressor

Transport	 
Type	125 CFM Compressor
Description	Diesel power, acoustic, 120 PSI

### Trimble 3D Laser

Transport	
Type	3D Laser, Machine Control
Description	GPS control. Can fit on dozers/Graders etc.

### Dual Grade Laser

Transport	
Type	Dual Grade Laser
Description	Auto Levelling, 1000m range

### Pipe Laser

Transport	
Type	Pipe Laser
Description	200m operating distance

### Concrete Vibrator

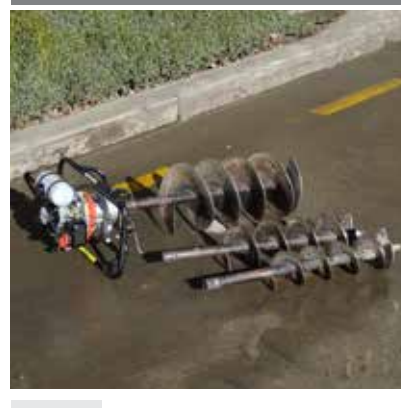

Transport	
Type	Concrete Vibrator
Description	Single phase, square head

### Concrete Mixer

Transport	
Type	Concrete Mixer
Description	Petrol or Electric, 70L Capacity

### Hand Auger

Transport	
Type	Hand Auger
Description	2 Stroke Petrol, Auger Size: 150, 200, 300mm

# DUMPERS

The wide variety of dumpers available to you is second to none, going from the small track wheel barrows through to the 27 ton earthmovers, including the low ground pressure Hydrema dumper trucks; altogether we have the range to meet your workload.

The Hydrema range is a specialty to Hireways, as these machines are able to operate in the most diverse range of conditions. These machines have a host of features designed to keep the net weight low and give excellent cross country performance while still carrying a high payload. So give us a call today for some expert advice to meet your earthmoving requirements.

## 500kg Tracked Dumper

Transport	 		
Capacity	0.3m³	Width	690mm
Payload	285kg	Length	1680mm
Height	1150mm	Power	7.5hp Diesel

## 1 Ton Tracked Dumper

Transport	 		
Capacity	0.53m³	Width	950mm
Payload	1150kg	Length	2650mm
Height	1470mm	Power	18hp Diesel

## 3 Ton Tracked Dumper

Transport			
Capacity	1.2m³	Width	1880mm
Payload	3000kg	Length	3250mm
Height	2500mm	Power	32hp Diesel

## 1 Ton Hi-tip Dumper

Transport	 		
Capacity	0.8m³	Width	1100mm
Payload	1000kg	Length	3050mm
Height	1800mm	Power	21hp Diesel

### 4 Ton Swivel Dumper

Transport			
Capacity	2.8m <sup>3</sup>	Width	1800mm
Payload	4000kg	Length	4170mm
Height	2600mm	Power	49hp Diesel

### 6 Ton Swivel Dumper

Transport			
Capacity	3.2m <sup>3</sup>	Width	2190mm
Payload	6000kg	Length	4615mm
Height	3180mm	Power	85hp Diesel

### 10 Ton Dumper

Transport			
Capacity	5.6m <sup>3</sup>	Width	2470mm
Payload	10000kg	Length	5820mm
Height	2800mm	Power	131hp Diesel

### 10 Ton Dumper - High Mobility

Transport			
Capacity	5.6m <sup>3</sup>	Width	2890mm
Payload	10000kg	Length	5910mm
Height	3030mm	Power	131hp Diesel

### 20 Ton Dumper

Transport			
Capacity	12m <sup>3</sup>	Width	3240mm
Payload	20000kg	Length	9130mm
Height	3390mm	Power	264hp Diesel

### 28 Ton Dumper

Transport			
Capacity	17m <sup>3</sup>	Width	3000mm
Payload	28000kg	Length	9480mm
Height	3500mm	Power	335hp Diesel

## 32 Ton Rigid Dumper

Transport			
Capacity	16m <sup>3</sup>	Width	3640mm
Payload	32000kg	Length	7360mm
Height	3810mm	Power	381hp Diesel

## 40 Ton Ejector Dumper

Transport			
Capacity	23m <sup>3</sup>	Width	3485mm
Payload	38000kg	Length	11590mm
Height	3990mm	Power	454hp Diesel

## Off Road Concrete Mixer

Transport			
Capacity	4m <sup>3</sup>	Width	2800mm
Weight	11000kg	Length	7600mm
Height	3425mm	Power	150hp Diesel

# TELEHANDLERS

Telehandlers are an increasing necessity across many industries in New Zealand. They easily lift and carry loads from one place to another often at height providing access and lifting solutions that can't be matched. This perfect blend of a wheeled loader and forklift makes these versatile machines a popular choice.

Hireways supplies a wide range of telehandlers and attachments to suit every need from building sites, to painters, off road material handling and farm yards.
