

M7040 CAB GRADER TRACTOR COMBO

HIGH PERFORMANCE. LOW MAINTENANCE.

The Neilo M7040 Grader tractor is the ultimate grader machine for general roadworks or site levelling. The innovative grading system enables you to make fine adjustments as you move and the blade design enables you to slew on a level plain at ground level when in rolled back mode.

The air-conditioned cabin provides comfort in all weather conditions, whilst the industrial strength glass allows for superior visibility, keeping your people safe.

Including your desired laser or GPS control system will enable precision finishing. We are approved Leica dealers, so can assist with any of your Laser/GPS needs and our interface system is also compatible with other brands.

Add on a 1.75m or 2.1m **NEILO** broom with a quick hitch for the ultimate in versatility. Get your site to grade, then sweep up when you're done, with the same machine!
