

## B3150 BROOM TRACTOR COMBO

### OUR MOST POPULAR BROOM.

This compact B3150 Broom is the ultimate combination of performance and reliability. Its large, high-performance 1.75m Road Broom is hydraulically operated from the air conditioned / heated Cab. The innovative design allows you to sweep at the exact positioning you require, while enabling quick and efficient brush replacements with only a hammer and two spanners.

Power through your sweeping tasks with the 1.75m broom, constructed from 5 brush sections for quick replacement. Its unique spring activated contour follows the lateral pivot, substantially reducing brush wear & coning.

A top mounted 'Top Spin' pre-cleaner prevents dust from entering the engine compartment.

- + 31 HP B3150 HST (HYDROSTATIC) TRACTOR
- + AC & HEATED FACTORY CABIN
