

## B3150 GRADER TRACTOR COMBO

### SMALL GRADER. LARGE PERFORMANCE.

Although it's the smallest Tractor Grader in our range, the B3150 Grader packs a real punch. Its 31 HP engine combined with a versatile 1.8 M grader blade makes for a powerful combo. The B3150 Tractor Grader is an open cab model, fitted with turf tyres to help protect sensitive surfaces.

The smart blade design comes with a reversible and replaceable cutting edge, as well as 2 detachable wings for increased capacity. Also, the folding ROP's enable you to enter through lower doorways and tighter spaces. The ideal grader for those delicate finishing tasks, and perfect for working inside buildings.

Including your desired laser or GPS control system will enable precision finishing. We are approved Leica dealers, so can assist with any of your Laser/GPS needs and our interface system is also compatible with other brands.
