Mills Albert Ltd has been Hiring and Buying Plant, from Hireways, for about 7 years now.

The Presentation and Variety of the Plant available along with the superb Customer Service is outstanding. They are our "Go to" Hire Company.

Dave - Mills Albert Ltd

# HireWays

## MACHINERY RENTALS

### Who are Hireways?

If you don't know too much about us, we are a New Zealand owned & operated company servicing the lower North Island. We have a sound understanding of what New Zealanders need due to our experience in the field, and you could call us veterans.

Any job is the right size for us and we supply everyone from Mega nationwide contractors, factories to local tradesmen. That's why we have a wide range of equipment that is kept in top shape.

We continually shake things up here to stay in the game, because we know times are changing. More than ever, it's all about service. We have a reputation that shouts 'best customer service' and we aim to keep that title and beat our own records. You be the judge.

We decided not to be one of those companies that say they value things that they don't just because every other business uses that jargon. We don't just harp on about the lowest prices. What matters the most is that the price is fair, and that the ongoing costs are minimal...which is why we make sure our equipment is always well maintained so you can just get on with your project worry free, while we hunt the globe for the best gear for you.

## **NZAM** MACHINERY SALES

We sell Machinery through our NZAM Division. This includes all types of New & Used equipment in all ranges and sizes. NZAM supplies specialized equipment for all applications including forestry, mining, contracting etc.

Through our great network of suppliers NZAM has the ability to source & supply you with your requested machinery. NZAM is also the New Zealand agent for the versatile Hydrema dump truck known for its proven off-road ability, low ground pressure, and its sure footed handling characteristics.

Contact the NZAM experienced team today for all your equipment needs.

## **Things you should know**

When you've been supplying hire equipment to the construction industry for as long as we have, you get to know people and understand their needs. Consequently, Hireways customers benefit from the most professional, proactive and flexible service in the plant hire business and at really competitive rates.

Of course, like all customers, you'll have questions regarding costs, and truth be told, it is possible to compromise on service to reduce rates. But our customers tell us they like picking up the phone, speaking to a familiar voice and knowing their request will be handled quickly and efficiently.

### **The Reason Hireways stands above the rest is outlined as below**

- **Experienced People:** Despite one of the widest ranges of equipment and being able to supply everything from rollers to a 30-tonne dumper, ours is a people business. Everybody, from the Hire Desk team, to the workshop, is willing and able to improve customer service.
- **Reduced downtime;** you never want to be held up by inconvenient delays. Like a breakdown on a machine. Thanks to our commitment to replacing machinery regularly, we offer a newer fleet of kit that is less likely to breakdown. Saving you time and money. If a machine does have a problem, or needs a service, you'll be reassured that we guarantee a technician on site within 2 hours of the breakdown being called in. In fact, our average response time to get an technician to site is just 67 minutes. Not bad for a national operator like us.
- **Full Valet:** We start with the basics. We clean every item of equipment. Not once, not twice, but every time it returns to one of our depots. We do this regardless of how long it's been out on hire. And when we say clean, we don't mean an external wipe-down. We mean a full valet inside and out. The teams in our yards have a saying, "There's clean and then there's Hireways clean." After cleaning, we're checking. All machinery and equipment is thoroughly examined before it's hired out. Each item is then issued a pre-hire tag. These provide you with evidence of our checks, and complete peace of mind.
- **Safety:** When it comes to safety, we never rest. We're constantly making incremental improvements. Things like roll over protection systems on all our machines and double locking quick hitches. On excavators, safety however, comes down to people. So we train all our drivers how to operate all the equipment and machinery we deliver. And most significantly, we'll visit your site to demonstrate to your people how to use equipment hired from us. This ensures your hire period is as safe as possible.
- **Workshop:** Hireways operates a workshop with a team of 8 technicians and engineers where we up spec and fully maintain our fleet. It is here where we service and make alterations to our equipment, all to suit our customers' requests and expectations of Hireways Service.
- **Transport:** With experienced operators and a variety of transport units Hireways has a large coverage, we organise the machine hire through to the transport meaning that you as the customer are able to get on with the job knowing that your machine will arrive on time and within budget.

If you have questions, please don't hesitate to pick up the phone, we promise you, it's one call you won't regret.

# ACCESS

Hireways are experts when it comes to accessing high and awkward positions with their wide range of access solutions and construction knowledge, so when you call on us you can be guaranteed to get sound advice that will allow you to get the job done at a significant height with the right access equipment.

There are a number of different devices designed to help you work safely and speedily above ground level, ranging from cherry pickers, stick booms, knuckle booms, Telehandlers, scissor lifts and man lifts. These are all sourced from top quality brands and maintained to our high standards allowing you to get the job done first time round, safely and on budget.

# BULLDOZERS

Hireways Ltd supply a range of top quality bulldozers ranging from 8-25 ton. These machines come fully equipped with ROPs air conditioned cabins, rippers/ winches, PAT or straight blades, allowing you to get the right machine for your job. From large to small, mining work to finishing work, forestry to farm work, ring the Hireways experienced staff for advise on matching the right dozer to your needs. Our bulldozers allow you to complete your job with the right equipment first time every time.

# CHIPPERS / GRINDERS / SPLITTERS

Hireways Ltd have a number of different machines to accommodate all your tree working needs. The stump-grinders come in sizes from 25hp to 66hp which allows you to remove stumps at minimal damage to your property.

Our modern stump grinding equipment is light, manoeuvrable, quick and non-intrusive, reducing the impact on the environments they work in. Our hand feed tree chippers range in size from 6" to 15"; they are built tough enough to withstand the daily grind. The machines are well maintained and easily transportable. With both vertical and horizontal hydraulic wood splitters we have the right machine to suit your requirements. Ring today with all your tree work needs.

# Long Term Hire

## The Complete Solution

We work with our clients to provide packages that work, and can be tailored to individual needs.

### How does this work?

Machinery is hired for a pre-determined time frame, at the end of this period, you can simply return the machine or re-apply for a new hire package deal.

### Key Benefits

- Competitive Pricing
- Our industry knowledge and experience means we understand our clients' needs
- We take care of all servicing & maintenance, therefore as the hirer you won't be left with the same liabilities
- No more capital out lay
- Rental payments are fully tax deductible
- Well spec'd modern machinery
- Various attachments available
- Brand the machine with your company stickers

**ALL YOUR PLANT NEEDS - FOR SHORT OR LONG TERM HIRE**

# CONSTRUCTION / DEMOLITION

Breakers, compressors, concrete cutters, lasers, concrete mixers, Hireways Ltd have the equipment for you in any construction or demolition applications.

Hireways caters for all markets, whether you are renovating your house, or on a major construction site. Having good quality equipment readily available that you can rely on ensures you get those construction jobs completed on time.

## Large Breaker

Price	
Type	26kg Electric/Petrol
Description	Large breaker, petrol or electric, spade, chisel point, tamping foot

## Electric Breaker

Price	
Type	10.5kg Electric Breaker
Description	Electric breaker, spade & chisel points

## Hydraulic Breaker

Price	
Type	Hydraulic Breaker
Description	Spade & chisel points

## Air Breaker

Price	
Type	Air Breaker
Description	Spade & chisel points

## Concrete Cutter

Price	
Type	Concrete Cutter
Description	Petrol, 350 & 400mm blades, trolley & handheld

## Compressor & Staple gun

Price	
Type	120 psi Compressor & Staple gun
Description	Trail blazer compressor, 40mm Staple Gun

## 125CFM Compressor

Price	
Type	125 CFM Compressor
Description	Diesel power, acoustic, 120 PSI

## Dual Grade Laser

Price	
Type	Dual Grade Laser
Description	Auto Levelling, 1000m range

## Pipe Laser

Price	
Type	Pipe Laser
Description	200m operating distance

## Concrete Vibrator

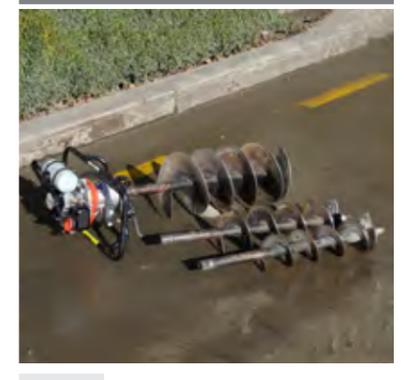

Price	
Type	Concrete Vibrator
Description	Single phase, square head

## Concrete Mixer

Price	
Type	Concrete Mixer
Description	Petrol or Electric, 70L Capacity

## Hand Auger

Price	
Type	Hand Auger
Description	2 Stroke Petrol, Auger Size: 150, 200, 300mm

# DUMPERS

The wide variety of dumpers available to you is second to none, going from the small track wheel barrows through to the 27 ton earthmovers, including the low ground pressure Hydrema dumper trucks; altogether we have the range to meet your workload.

The Hydrema range is a specialty to Hireways, as these machines are able to operate in the most diverse range of conditions. These machines have a host of features designed to keep the net weight low and give excellent cross country performance while still carrying a high payload. So give us a call today for some expert advice to meet your earthmoving requirements.
